

## I'm officially a published author!

Since last month's newsletter, I became a **PUBLISHED AUTHOR!**

It feels surreal and I don't think it's quite sunk in yet. As amazing as it was to send my book baby out into the world, it was the support I received from bloggers and other authors, who I've only met online that totally blew me away.

*Loving Summer* received a lot of support on its release day. So many shares and so much love. It was completely unexpected and a little (no, make that a lot) overwhelming!

Feedback from readers has been extraordinarily positive, encouraging me to keep writing. Which is exactly what I've been doing.

I've finished the first draft of *SECOND CHANCE SUMMER*, which features Toby Summer, Kate's twin brother. Early beta feedback has been amazing. I really think you guys will love Toby and Cassia. Though, I have a sneaking suspicion that another character may end up stealing the spotlight and your heart.

I've also been busy writing a 20K-word piece to be included in an anthology. The anthology hopes to raise money to support a fellow author and her family after they were involved in a horrific accident. *The theme is Quickie Wedding*. For this piece, I decided to write Roman's story. He meets and has a fling with a woman while on vacation. Fate steps in and brings them together again, but will they manage to make a relationship work when they're back to their regular lives?

I'll keep you updated about the project as I know more!

If you'd like a space to talk about my characters and generally have a bit of fun, you might like to join me in my Facebook group, **Deb's Bibliomaniacs!** (apt name, huh?) I'd love to see you there.

**Lena**

I'm the responsible twin. Balancing my checkbook, showing up to work on time, catering to others, and always doing the right thing - that's me. Reckless one-night stands and wild behavior, not so much. But I've spent so long being my sister's keeper that I'd forgotten how to live. One look at Quincy and everything changes. He brings out a side of me I never knew existed. And I need more.

**Quincy**

I'm a fixer. Between owning a bar and running an animal rescue, I've done my fair share of being the hero. But from the moment Lena walks into my office, I know she doesn't need saving. She's feisty, smart, and sexy as sin. The only problem? Someone else has already painted me as the knight in shining armor in her very

own fairy tale.

*Secrets, questions, and lies come to light. Can real love survive misunderstandings? Or will we both lose love right after we just found it?*
