St James  
MODERN *Sexy* ROMANCE

G'day, !

I hope life is treating you well and that you're finding time to read all the books! This is gonna be a long newsletter, so you might want to make yourself a beverage and get comfortable.

You may remember in my last newsletter, I told you our eldest boy had Covid. Well, he recovered fully from the illness and the rest of our family remained Covid free, which astounded me. Fingers crossed we maintain our good luck! I hope you and your family are managing the Covid situation the best way you can.

The temperatures are beginning to drop here as the temperatures for those of you in the northern hemisphere begin to rise. It's dark when I wake in the mornings to share a coffee with Mr. St James before work, which is a clear indicator that winter is on its way.

Along with all of my other author duties, I've spent some time revamping my website over the last couple of weeks. Feel free to take a look at my handy work! *[you can find the link at the bottom of the email]*

## Moonlit Kisses | Kisses – Book Two

*An age-gap workplace romance*

### Max

I'm the inappropriate family member. The middle child, born between two sisters. The favorite uncle (okay, I'm the only uncle, but I'm still the favorite). My family means the world to me.

Life is good, simple, and problem free, if not a little lonely.

Until I go to work one day to find sleeping beauty in a parking space behind my workshop. She's gorgeous, but my previous experiences with beautiful women have left an unwelcome mark on me and my family.

As I get to know Molly, I'm repeatedly proven wrong.

Now I have three problems: I'm her boss, a full decade older than her, and I want her.

### Molly

At twenty-six, I've lost everything: my family, my home, my job. All I have left is a tub of memories in a hometown that now feels foreign. My family meant the world to me and moving on without them seems impossible.

In my grief, I decide to start a new life in a new city, and that's where I meet Max. When he finds me sleeping in my car, he's gruff at first, but somehow, I impress him enough that he offers me a job. Max quickly becomes everything I need to survive.

But can I convince him to see me as more than just his employee?

*This is the second book in the Kisses series, a spin-off from Stolen Kisses. While this is a stand-alone title, we first met Max in Stolen Kisses. For the best reading experience, it is recommended you read Stolen Kisses first; however, it's not essential for the enjoyment of this story.*

*Steamy slow-burn age-gap workplace contemporary romance. 1119K+ words. Stand alone. HEA. Recommended for 18+. **Tissues required!***

### A LITTLE TASTE ...

I was trying to be a fucking gentleman. I honestly was. I don't trust myself to share a bed with the woman who's taking up so much space in my head and, if I'm being completely honest, in my heart, too. I haven't slept properly since Monday night, when I spent the night in her bed. Even though I spent the night on top of the covers, her scent

surrounded me and, holding her close, felt ... right.

With her body curled into me and her leg thrown over mine, I lay awake for what seems like hours with a raging hard-on.

We fit perfectly together.

When she rested her head over my heart and released a contented sigh, I knew I would do anything for her. Anything to make this transition she's about to go through with Martin as pain free as possible.

When I saw her drop her head to her steering wheel and her body heave in the parking lot outside of the restaurant, I knew she'd taken an emotional hit over dinner with her dad. I couldn't stop myself from going to her and outing the fact that I was following her. I didn't care.

I only wanted to be there for her.

To take away her pain.

Sitting with her snuggled into me on my couch and listening to her giggle at the TV eased some of the rage I'd been feeling toward Martin for upsetting Molly. She's already been through enough. She doesn't need this shit dredging up stuff that's gotta be tough for her. I wanted to ask her what he'd said, but I respect that she needs time to digest what she learned tonight. I blow out a long breath and work to relax my body. I wrap my arms around the woman I'm falling for and kiss the top of her head as she sleeps. She sighs contentedly, and my body relaxes further.

\* \* \*

Before I even open my eyes, I know she's looking at me. I can feel her stare burning into the side of my face. Her hand scorches my lower abdomen and my cock thinks it's an invitation to rise for attention. I kept my boxer briefs on last night, so he's somewhat contained, but he's doing his best to escape the confines of the fabric.

I groan as her fingers trace the trail of hair that leads from my naval downward. I grasp her hand to stop her from reaching the elastic band and discovering the issue I'm trying to control but am failing. Her tits are pressed into the side of my body and every single inch of me is aware of every single inch of her. Every breath. Every beat of her heart.

NEW RELEASE

## Embracing the Beat | Heart Beats – Book 4

Dreams and hearts have something in common: *their ability to shatter.*

### Michaela

Going from a record label back to my home town was something I never imagined. When I realized my dream was nothing but a nightmare, I couldn't run fast enough. I wasn't expecting everyone to see me as a some big star... and I definitely wasn't expecting my older brother's best friend to be living down the hall.

West Abbott starred in every single one of my teenage daydreams. And now he's quickly becoming the

subject of every adult fantasy too. He's my brother's best friend, but that does nothing to stop the fire that sparks when he touches me.

But will he still want me when he finds out the dream world I've told him about is nothing but make believe?

### West

The Mikey I remember is still the two-year-old with platinum blonde dandelion fluff for hair. But that's not who I find in the kitchen at three in the morning. Mikey is now Michaela, and I can't ignore that she's all woman now. And that I want all of her.

She's a famous singer. I'm a broke history teacher. She's my best friend's baby sister. And for every excuse I come up with to stay away from her, my attraction to her grows until I can't resist her any more.

But I can't help feeling like she's hiding something from me. And one lesson I learned after my last relationship crashed and burned? Never again fall in love with someone keeping secrets.

## Forbidden Promise | Hope Island Series — Book 1

*Why does forbidden fruit always taste the sweetest?*

### JARRYD

As a doctor, I take my promise “to do no harm” very seriously, which is how I find myself pressured into court-ordered therapy. I might have to sit on her couch and listen to her probing questions, all while imagining her long legs wrapped around my waist or draped over my shoulders, but that doesn’t mean I have to bare my soul.

### APRIL

I’ve been slaving away at the local clinic, biding my time until I can register as a private therapist. Nothing is going to take my eyes off the prize. Not even the sexy new patient lounging on the couch in my office. Sure, he’s hot, and I’d like to take him for a spin. But the price of crossing that professional line is too high, and the cost is my dream.

When the truth reveals itself, will they keep their forbidden promise? Or will it shatter, along with their hearts?

## Saint | Gatekeepers MC — Book 1

**LIVE FAST, RIDE FREE AND LEAVE A GOOD-LOOKING CORPSE.**

**Saint Westmoreland** is a Gatekeepers Motorcycle Club legacy and next in line to become their President. He has it all. Drugs, money, and more women than he can shake a fist at. Yet something is missing. He’s bored and perhaps a touch lonely.

**Toney Fuze** is an ambitious and talented plastic surgeon. When she

meets Mister Westmoreland the heat between them burns uncontrollably, causing a blind spot in Saint's peripheral.

As his world turns upside down, he must turn to her, as those he trusts most may very well be the key to his demise.

Will the pair face it head-on or let it all burn to the ground around them?
